

Mohawks of the Bay of Quinte (ALFDC)

On-Reserve LMI Pilot Project

Summary of survey data up to June 2020

Community Survey

503 completed surveys → **23%** of the On-Reserve 15+ population

As more of the population is surveyed - the more precise the information becomes

Based on the current number of respondents in this community, the accuracy of the data is within + or - 4 percentage points.

Education

63% completed at least some Post-secondary

73% also reported other licenses or certificates

13% reported other training or courses

Job status

When taking into account **traditional and occasional jobs**

Traditional skills jobs include things like fishing, hunting, crafts, guiding

Occasional/informal paid jobs include things like babysitting, repairs, cleaning

Most common skills

Outdoor maintenance

Cooking, preparation and/or preservation of food

Crafts and arts

Least common skills

Computer programming, creating apps

Repairing appliance, small engines, motors

Identification and harvesting of local plants

Most common jobs

Early childhood educators and assistants

Retail and wholesale trade managers

Social and community service workers

Retail salespersons

Cashiers

Administrative assistants

Elementary and secondary school teacher assistants

Food counter attendants, kitchen helpers and related support occupations

Future intentions

26% plan to go back to school in the next year

41% are interested in future training

44% are interested in receiving job notifications matching their skills and interests

A better picture of the experience, training and skills of community members and the challenges faced will help to connect people to available jobs and help those that want to get new skills and qualifications.
